LALIZAS

Simply life saving

Since its first days of operations back in 1982, LALIZAS had one clear vision, to produce high quality life saving products, at the most competitive prices, and to distribute them in international markets.

LALIZAS brand values safety above everything and recognizes that Safety remains, the most important consideration aboard a ship, offshore vessel, or oil rig/platform. Moreover, LALIZAS Safety offers worldwide service, in which you – the customer – deal directly with our safety experts within a global established network.

LALIZAS' In-house R&D, Design and Quality departments consist of more than 20 experienced staff, who are each extremely skilled in their expertise field. Additionally, our specialized approval department ensures that all of our products and services comply and are up to date with the latest international maritime regulations and equipment standards.

Throughout the years, the vision of setting Safety as our priority, along with the care for the customers and indispensable input of the employees, made us grow from a simple lifejacket producer to a leading manufacturer, distributor and service provider of LSA and FFE products.

At Alexander/Ryan Marine & Safety, we understand that our customers operate under challenging conditions and high demands. Our 55 plus year commitment in sharing the responsibility for keeping your people safe and assets operating profitably have been and will continue to be at the heart of everything we do.

ARMS is one of the most diversified marine and offshore safety companies in the industry. Our menu of safety products and safety service solutions allows our customers to have the proper tools in place to help maintain a safe, healthy and productive offshore workplace.

Our offshore safety solutions have been developed through decades of intensive research and are based on our deep knowledge of the maritime industry standards and regulations. This is reaffirmed by the fact that our company has been awarded more than 50 approvals through the United States Coast Guard, USCG and the American Bureau of Shipping, ABS.

You can count on Alexander/Ryan Marine & Safety for your offshore Safety needs.

- Lifeboat systems from 20 - 150 persons

Since its establishment in 1975, Antipiros Company has focused on a specific target of providing authorized services from fire-fighting systems and appliances to safety equipment, used both onshore and offshore.

Remaining on the same course as in the previous years, Antipiros is still standing at the forefront of providing detailed assistance in the field of safety and fire-fighting service, by striving for continuous improvement of its services and through constant education of its staff. More than 40 qualified and highly skilled professionals are at our customers' disposal to provide their assistance and expertise.

By understanding the onerous conditions, under which people and goods are called upon to operate and while putting the protection of a human life and goods in the company's core, Antipiros has developed a quality insurance system that is verified by international bodies such as Bureau Veritas and Lloyd's Register and meets all international as well national standards and regulations.

In keeping with professional norms and ethics, customer satisfaction is the greatest reward we can receive for our activities. Returning customers - not products: this is our quality motto.
